***Response to Amendment***

The Amendment, filed on 8/2/07, has been entered and acknowledged by the Examiner.

Cancellation of claims 4-10 has been entered.

Claims 1-3 are pending in the instant application.

***Allowable Subject Matter***

A. Claims 1-3 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The prior art of record teaches a plasma display panel comprising: a first dielectric layer having a substantially rectangular shape for covering a display electrode and a front substrate, the display electrode being formed on the front substrate and including a scan electrode and a sustain electrode; a second dielectric layer having a substantially rectangular shape for covering a data electrode and a back substrate, the data electrode being formed on the back substrate; and a barrier disposed on the second dielectric layer, wherein at least one of the first dielectric layer and the second dielectric layer in plane view has four corners with a radius of curvature of other than zero.

However, the prior art of record neither shows nor suggests that each of the four corners is where two sides of the substantially rectangular shape meet as set forth in Claim 1.

Claims 2-3 are allowable because of their dependency status from claim 1.

Art Unit: 2879

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
